

ANTIGRAVITY

LIGHT LAGER
4% ABV 8-IBUs

All Goes Onward and Outward.

- Rooted in basement brewing with his Gramps and bubbling, thick university experiments in zymurgy, our founder, Peter Chiodo, realized his epic vision of craft brewing with the Flying Monkeys in 2009.
- The Flying Monkeys' Mission: Brew Fearlessly. And make beers we love.
- Challenge Normal, because doing it "the way everyone else does it" is just plain Weird.
- Besides LOVE, we use all kinds of other natural ingredients in our beers. Anything fresh and inspiring floating around at brew time is fair game.

Why Serve Craft Beer?

- From higher margins to more loyal customers, serving craft beer improves your bottom line.
- On average, Craft Beer Drinkers have a 36% higher bill than other beer-drinking patrons.
- Fresh, local Flying Monkeys craft beer costs 35% less than import macro beer but lets you charge the same per tastier pint.

Style – Yeah, we know: “light” and “craft brewed” in the same sentence? Yes. Antigravity is a natural, craft-brewed light lager late-hopped for a complexity not usually found at the lighter end of the spectrum.

Taste – Brewed with Canadian two row pale malt, Antigravity is a super-refreshing, clean-tasting, lager with a dry brush of European Saaz hops on the finish.

Drinkers – Antigravity Light Lager is easy to drink and super-refreshing. Great for craft beer beginners and fans of light lagers but is still flavourful enough for established craft beer supporters.

Serve With – Antigravity compliments traditional “beer foods” like pizza, fries with poutine, wings, and other spicy or fatty foods. Once you torch your palate with hot wings, a thirst-quenching lager still leaves your mouth ready to savour the rest of your meal.

Inside the Recipe

ABV	4%
